**The Implications of COVID-19 for the Care  
of Our Athletes**

Hosted by Asheesh Bedi, M.D., Harold W. and Helen L. Gehring Professor of Orthopaedic Surgery; Chief, Sports Medicine and Shoulder Surgery; Director, Michigan Center for Human Athletic Medicine and Performance; Head Orthopaedic Team Physician, University of Michigan

Join the Exercise & Sport Science Initiative (ESSI) and Michigan Center for Human Athletic Medicine & Performance (MCHAMP) for a seminar discussing the implications of COVID-19 for the care of our athletes. Experts will discuss caring for athletes on the sideline and virtually in clinic; monitoring athletes' mental health and well-being during the pandemic; assessing the impact of altered conditioning, training and gameplay on injury risk and performance; advancing COVID-19 benchtop to sideline research; and applying lessons learned from the challenges of the last year to advance the care for athletes of all ages and levels of performance.

**Join us as Asheesh Bedi hosts a conversation and Q&A with:**

**Speakers:**

**Eugene Chung, MD**

Clinical Associate Professor of Internal Medicine  
- Sports Cardiology, U-M Medical School

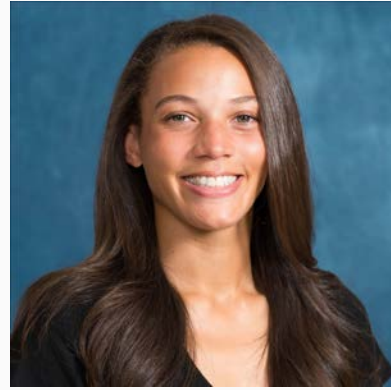

**Richard Dopp, MD**

Clinical Associate Professor of Psychiatry, U-M
